(22)Date of filing : 21.11.1994

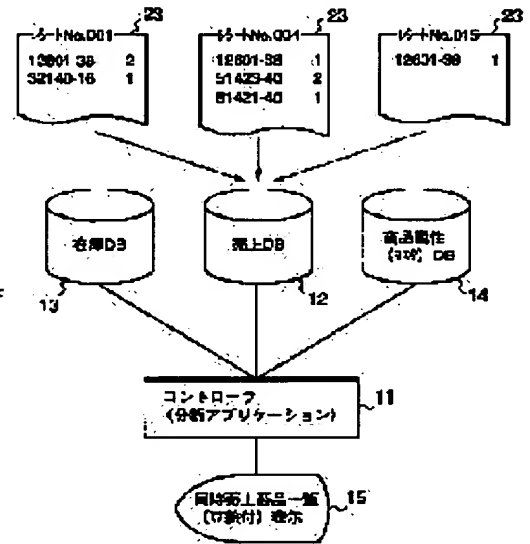

(72)Inventor : YOSHII SHINICHI
INOUE TAKAAKI

(54) DEVICE AND METHOD FOR RETRIEVING AND DISPLAYING SIMULTANEOUSLY SOLD PRODUCTS

(57)Abstract:

PURPOSE: To easily judge the propriety of the combination of respective products with the other products and the products to be combined in the case of performing combination.

CONSTITUTION: A product attribute (master) DB 14 stores information for the respective products together with the pictures and a sales DB 12 stores the sales information of the products in a shop by a receipt unit. A controller 11 retrieves the information of the product sold together, that is the simultaneously sold product, for the optional product from the product attribute DB 14 based on the sales information stored in the sales DB 12 and lists and displays it together with the reduced pictures (miniature pictures) in the descending order of the frequency of being sold together, that is a set rate.

LEGAL STATUS

[Date of request for examination] 21.11.1994

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number] 2702078

[Date of registration] 03.10.1997

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]

[Date of extinction of right]
